ATA LIBRARY

# Your Professional Library

Helping you find the information you need, when you need it

---

At the ATA library, you have access to tonnes of great information about the teaching profession.

# Your ATA Library

As an education undergraduate student with an ATA membership, you can have access to the private library used by teachers all over Alberta.

## Our Materials

Writing a paper about best practices to support students with autism in the classroom? Need to find a great book on classroom management?

With your ATA membership, you have access to a collection of more than 20,000 books, reports, and videos. Our collection includes materials on:

- Classroom management
- Differentiated instruction
- First Nations, Métis & Inuit viewpoints
- Learning disabilities
- Maker technology
- Second language learners
- Sexual minorities & gender variance

We mail requested materials to your home and prepay the return postage so there is no cost for borrowing materials no matter where you live in the province.

## Our Library Catalogue

To request materials, login to our library homepage (<http://library.teachers.ab.ca>) using your ATA online account. The **Log In** link is in the upper right-hand corner of our site.

Use the **Search the Library** box, select your titles, and click the request button to send an email request to our library staff for the titles that you are interested in borrowing. A pop-up box should appear with your email address listed (if it does not appear, please allow pop-ups for our site and click the request button again). Add your name to the box and press OK. You will get a confirmation email in your inbox.

## Loan Periods

All materials are loaned for **28 day** periods. Loans can be extended if another ATA Member has not requested the material. Please always return materials promptly as teachers may need the materials to support their practice.

## Surfing the Web with Your Library

Your library has created five categories of amazing web guides for you. ATA Library Guides focus on your professional learning: Teacher, Subject, Topic, Guides en Français, and Seasonal Guides contain links to resources you can use in your teaching. These librarian-reviewed resources are free and represent the best resources we could find on these topics. Save

yourself time by skipping the Google search and coming directly to our resource pages!

## Maker Technology

Makerspaces are one of the most exciting new trends in education. A makerspace is a place where students can create, invent, tinker, explore and

discover using a variety of high- and low-tech tools and materials. Our makerspace collection allows you to borrow the newest maker technology to test out its pedagogical potential before using it in a classroom. The Makerspace Guide includes a list of all the kits available in our library. This guide links you to online resources for using the kits with students.

## Research Service

One each of the pages, you will find Open Access Journals. These are free online magazines and academic journals that are not part of any paid database. The items marked with graduation caps are scholarly journals that are safe to use in your research papers.

Save yourself time by skipping the Google search and coming directly to our resource pages.

If you experience any problem finding what you need, please contact our staff. We are happy to book research appointments with our librarian for in-depth research support.
