

# CONNECTED OR DISCONNECTED?

**Growing Up Digital (GUD) Alberta** is a 10-year, collaborative research project that examines perspectives on digital technology, health and learning. The current phase of study involved collecting data from parents and grandparents.

**68%** of Alberta's parents believe their child's use of technology at school is **ABOUT RIGHT**.

**26%** of parents believe their child's use of technology at school is **TOO MUCH**.

**6%** of parents believe their child's use of technology at school is **TOO LITTLE**.

“ I think schools and parents play an equal role in developing good habits with technology. ”

— Alberta parent
